**Spoštovani!**

Znanstveno-raziskovalno središče Koper, Inštitut za kineziološke raziskave v sodelovanju z Univerzo v Mariboru, Pedagoško fakulteto organizira 9. mednarodno znanstveno in strokovno konferenco »Otrok v gibanju«. Gibalna/športna aktivnost je integralni del otrokovega vedenja in stalne komunikacije z okoljem, zato je nujna za skladen razvoj otroka. Današnji življenjski slog, ki ga družba oblikuje in ponuja mladim, vsekakor ne spodbuja vsakodnevne gibalne/športne aktivnosti. Še več, še več potreba po gibanju, ki človeka spreminja skozi celotno evolucijo, žal izginja.

Novost konference so strokovne delavnice »Aktivni v vrtcu in šoli«, katerih namen je predstaviti novejše pristope, ki se uporabljajo v praksi.

Konferenca se bo odvijala v Grand Hotelu Bernardin v Portorožu, od 2. do 4. OKTOBRA 2017.

**Dear Colleagues!**

It is our great pleasure to inform you that Science and research Centre Koper, Institute for kinesiology research in cooperation with University of Maribor, Faculty of Education is organizing 9th International Scientific and Professional conference »**CHILD IN MOTION**«. The physical activity is the integral part of children's behaviour and constant communication with the environment that is why it is essential for a harmonious development of children. Today's lifestyle, that the society designs and offers to young people certainly does not encourage daily physical and sport activity, furthermore, the need to move which accompanies the human throughout the evolution is unfortunately fading.

The novelty of the conference are technical workshops "**Active in kindergarten and school**", which aim to demonstrate the newer approaches that are used in practice.

The Conference will be held in Grand Hotel Bernardin, Portorož, Slovenia in 2nd to 4th OKTOBER 2017.
