

Invitation for Guest Lecturers & Students

International Summer School 2016

Co-designing Better Urban Living and Wellbeing

30 May–10 June 2015 Lahti, Finland

Green Energy Green Care Green Tech Green Design

We would like to invite guest lecturers and students to participate in our Summer School 2016. We look forward to meeting you here, sharing your expertise, and enjoy the Finnish Midnight Sun together.

The participation in the Summer School program can be supported by the Erasmus + Teaching Mobility Programme. You are welcome to participate in the whole 2-week program or choose either 1st or 2nd week.

Academic Program

- ✓ Project work - tasks given by local work life partners
- ✓ Lectures, presentations, and workshops - guest lecturers and experts from Finland and abroad.
- ✓ Articles by all participants will be combined in the summer school publication
- ✓ Networking

Social Program

The social programme offers the opportunity to experience Finnish summer and culture with activities, such as sauna bathing and swimming in the lake.

The midnight sun guarantees 24 hours of daylight!

Unique Experience!

Last summer our students, teachers, and the work life partners gave us an excellent feedback.

- ✓ Students enjoyed working in international and interdisciplinary teams and finding together solutions to the real work life development tasks. The teams with different professional study fields and different study levels from Bachelor to Master (1-6 years) proved to be an efficient combination for learning together.
- ✓ Teachers learnt both about each other's expertise and way of working.
- ✓ Work life partners were happy to get a fresh and well thought and presented solutions.
- ✓ Everyone enjoyed writing the publication together.
- ✓ The team spirit between participants grew high during the very intensive two weeks.

Opportunity for your Students

You are welcome to bring your students with you to participate in the Summer School. This intensive course is suitable for both Bachelor and Master level students. The program will be arranged partly in the middle of the city and partly in the clean and fresh Finnish nature by the lake.

Completing the whole programme gives **5 ECTS**.

Registration deadline for students 27.4.2016.

WELCOME TO FINLAND!
