Characteristic features of the foreign language teaching conception at the Faculty of Physical Education and Sport, Charles University, Prague.

• An important prerequisite for successful study of Foreign Language I (language for specific purposes) is a reliable knowledge of the general language. We offer no courses for beginners.
• Students may choose languages according to their preferences (based the courses offered by the department). At the Foreign Language I level, English and German are offered to students from all branches of study. In addition to the above mentioned languages, Foreign Language II and III courses are also available for those who want to study Russian, French and Spanish at the beginner and intermediate level.
• Based on the subject of study, courses specialize in the languages of sport, physiotherapy and sport management.
• The progress of all students is monitored throughout the whole semester. At the end of the semester the student has to demonstrate sufficient knowledge through a written credit test.
• The conditions for classified credit or the final examination reflect both the specific features of the target language and the requirements of individual branches of study.
• Great stress is put on students’ preparation for their future practice.
• Vacancies in the courses are available to students from other branches of study.
