## 1. Studijní pobyt za školné

Subject: USA Study Opportunity at George Mason University

Hi everyone,

We are offering the opportunity for your students in masters or bachelors programs to come to George Mason University and work with high quality teachers and scholars on sport management and sports studies both in the USA and internationally. We have special tuition and housing rates established for this program. We are located only about 20km from Washington, DC and have a shuttle bus from campus to the Washington Metro. It is easy to travel to New York City sporting venues as well. If you have questions, let me know, but I look forward to welcoming your students this Fall. The program is in its 4th year and is now well established. There is a possibility for interested students to complete their students in Barbados with our study trip there which takes place in early January. We also welcome students in Spring 2013 (late January to mid-May) if there is interest for that semester.

We need to get the process started by the middle of April to ensure timely visa processing. You can contact me with student names or have the students contact me directly. Thanks for spreading the word and sharing with your colleagues and students.

Cheers,

John
