
Studying at the Faculty

Internet and e-mail

There is a “Computer Suite” at the Faculty, with PCs available for student use, with free internet access. The computers equipped with common word-processing are windows-operated and have a free internet and e-mail access. There is also a wi-fi (EDUROAM). Students will get their own personal e-mail account and a password that allows use of Faculty computers.

Library

The Library has comfortable study space for 70 students, collection space for 300.000 volumes and access to all electronic resources on the Internet and elsewhere. Suggestions from students are also considered – the Library strives to reflect multiple viewpoints while respecting the Faculty’s main mission.

Sport and recreation

There is an already wide range of practical courses in various kinds of sports for the international student on the curriculum. Apart from this, there is also a wide range of opportunities for students to participate in various activities at all levels of physical activity, encouraging students to develop a healthy lifestyle. International students can enjoy discounted prices at sports grounds in the Faculty. The following facilities are available at the Faculty building:

- Fitness classes, ranging from aerobic exercises to circuit training in a weights room,
- Outdoor facilities, consisting of two multi-purpose courts, a football practice field and a six-lane all-weather athletics track with field event sections,
- Multigym, available for all sorts of ball-games,
- Squash Centre (adjacent to the main Faculty building), providing non-guided squash, wall-climbing and aerobics classes.

Across from the Faculty, there is a huge nature reserve, Divoká Šárka, that welcomes nature-loving students to spend some of their free time.
