# International Students

---

International students enter Charles University, Faculty of Physical Education and Sport, for various study purposes, which determines their student status.

**1. SELF-FINANCING STUDENTS** are fully-funded students who study in English and usually intend to complete the whole degree (BSc/MSc/PhD) programme, where tuition fees are required. However, some students may also intend to study selected courses (they pay partial tuition), which can be recognized by their home universities, where they are currently registered as full-time students.

**2. ERASMUS+ STUDENTS**

- ERASMUS+ - INCOMING STUDENTS are exchange students from EU member countries. They usually stay just for one or two semesters and their study is EU-granted. All students have to register on line and fill standard forms too (on paper), <http://www.cuni.cz/UK-928.html> .

**3. EXCHANGE STUDENTS** are students who come pursuant to government, university, faculty and next cooperation agreements, and students who are awarded a scholarship by the relevant ministry or another establishment.

According to the registration type, length of study, financial and study guarantors, our international students are divided into the above 3 groups. Decide on the type and form of your study and click on one of the three options on the left-hand panel to obtain detailed information.
